

Yusuf Hussien

Software Engineer

📍 Cairo, Egypt 📞 +20 127 712 2725 ✉️ yhussien01@gmail.com

🌐 LinkedIn 🐙 GitHub

Summary

Passionate and detail-oriented **Software Engineer** with strong experience in backend development using **Java** and **Spring Boot**. Skilled in building and maintaining **RESTful APIs**, working with databases, and creating efficient, secure backend systems. Familiar with other technologies such as **.NET** and **FastAPI**, showing flexibility across different stacks. Committed to writing clean, maintainable code and continuously learning new tools and best practices.

Education

HUN University

B.Sc. in Computer Science (GPA: 3.18 / 4.0)

- **GPA:** 3.18 / 4.00

- Focused on Software Engineering and Artificial Intelligence foundations.

Expected Jun 2027

Hurghada, Egypt

Experience and Volunteering

Lead — Google Developers Group on Campus (GDGoC) HUN

Team Lead

- Organized and led multiple technical events and workshops.
- Promoted learning and innovation through community-driven initiatives.

Aug 2025 – Present

Hurghada, Egypt

Programming Instructor — GDGoC HUN

Instructor

- Mentored over 200 university students in C++ programming and data structures.

Oct 2024 – Jul 2025

Hurghada, Egypt

Back-End Mentor & Developer — NASA Space Apps Hurghada

Mentor & Development Team Member

- Guided 130+ participants in building solutions for NASA Space Apps challenges.
- Contributed to the Hackathon platform by developing a FastAPI chatbot using LLM APIs.
- Implemented a session-based chat system with history for user interactions.

Oct 2025

Hurghada, Egypt

Projects

El-Youm 8 – Full Search System for Egyptian High School Results | 🐙 GitHub

- Developed a full-stack solution for searching Egypt's "Thanaweya Amma" results by student name, supporting REST API, web app, and Telegram Bot.
- Implemented typo-tolerant name search (handling Arabic variants), rank/percentage calculation, and duplicate handling.
- Integrated multi-database support (MySQL, PostgreSQL, SQL Server) using profiles and Dockerized deployment.
- Built asynchronous Excel import and concurrency via **ExecutorService** and **Virtual Threads**.
- **Tech Stack:** Java 21, Spring Boot (REST & MVC), Thymeleaf, Docker, Maven, FeignClient, Telegram Bot API.

PHI-E-Commerce – Online Store API | 🐙 GitHub

- Developed a scalable e-commerce backend supporting product catalog, shopping cart, orders, and JWT authentication.
- Implemented payment integration using Stripe and caching with Redis for improved performance.
- Utilized Specification pattern for filtering, sorting, and pagination.
- Achieved 92% test coverage with **JUnit** and **Mockito**.
- **Tech Stack:** Spring Boot, PostgreSQL, Redis, Spring Security, JWT, Stripe.

PHI-Soccer – Football Desktop Application | 🐙 GitHub

- Created a JavaFX desktop app for real-time football scores, match stats, and global league insights.
- Implemented asynchronous background API calls for non-blocking updates.
- Added smart logo caching to minimize redundant network calls and optimize performance.
- Designed advanced match filters by league, team, date, score, and status.
- Improved responsiveness using thread pools and **ScheduledExecutorService**.
- **Tech Stack:** Java, JavaFX, FXML, CSS, Maven, Jackson.

Skills

Backend: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring Security, Thymeleaf, FastAPI, JavaFX, RESTful APIs.

Databases: MySQL, PostgreSQL.

Frontend: HTML5, CSS3, JavaScript, Thymeleaf (for dynamic views).

Programming Languages: Java, Python, C++, JavaScript.

Core Concepts: Object-Oriented Programming (OOP), RESTful APIs, Concurrency, Testing, CI/CD.

Tools & Platforms: Git, GitHub, Maven, Postman, Docker, Redis, Linux.

Soft Skills: Leadership, Mentoring, Teamwork, Problem Solving, Communication.

Achievements

Participated in the **Egyptian Collegiate Programming Contest (ECPC)** representing HUN University.

Competed in the **NASA Space Apps Hackathon Hurghada 2024** and achieved **5th Place** among 40+ teams.

Led and mentored peers in multiple university-level programming and AI-related workshops.
